Medication and Drugs: Current Issues for Breastfeeding

Featuring

Lisa M. Stellwagen, MD

And

Amy E. Evans, MD, FAAP, CLEC, FABM

Wednesday, August 3, 2016

NEPTUNE HIGH SCHOOL
PERFORMING ARTS CENTER
NEPTUNE, NJ

Provided by the
MONMOUTH/OCEAN
BREASTFEEDING CONSORTIUM

Co-Provided by
Jersey Shore University Medical Center

TARGET AUDIENCE

Lactation Consultants, Breastfeeding Counselors, Nurses,
Physicians, Midwives, Social Workers, Psychologists, and Dietitians

GOAL

To provide professionals and other lactation support staff with
current evidence-based recommendations and potential effects
regarding the use of medications and drugs on the breastfeeding
dyad.

OBJECTIVES

- Discuss the effects of maternal marijuana on the breastfed infant.
- Discuss the benefits of breast milk for infants with NAS whose mothers are in a prescribed treatment.
- Review the pharmacology of how medications penetrate into breast milk during various stages of lactation.
- Analyze case studies of lactating mothers and their breastfed babies to determine management of medication issues and options.
- Discuss the treatment options for maternal infection in terms of safety for the breastfeeding dyad.

DIRECTIONS

Garden State Parkway North or South, Exit 100 to Route 33 East;
Approximately 5 miles, make left onto Neptune Blvd. just past
hospital, at light. High School is on the left about ¼ mile down.

Route 18, Exit 8-A, Route 33, Neptune; follow ramp to Route 33
East; then follow directions above

Neptune Performing Arts Center
55 Neptune Blvd. Neptune, NJ 07753

Please park across the street at 60 Neptune Blvd, large north lot.

Bring a sweater: the room may be chilly!

Quiet nursing babies under 6 months are permitted.

The Monmouth/Ocean Breastfeeding Consortium
888 Main Street
Belford, NJ 07718
