

New Jersey Breastfeeding Coalition Statement

June 9, 2020

Black Lives Matter

Racism is a public health emergency. The New Jersey Breastfeeding Coalition stands with all people demanding an end to racism and injustice.

The New Jersey Breastfeeding Coalition stands with the Black community in denouncing the police murder of Mr. George Floyd and others and violence against people of color. We are saddened and angry that the killing of unarmed Black lives continues to plague us, divide us and is an obstacle to real change in America. We support the Black Lives Matter Movement and are committed to finding solutions. We welcome partnerships with others seeking positive change.
